

Waiting a Long Time

by John Hadley, Gregg Standridge and Terry Ware

I've been staring at the wall
Listenin' to the clock tick
Got no one to call
I've got a different kind of homesick

I've been feelin' all wrong
This place has got me fed up
Been hiding out too long
Tonight I'm gonna get up

I've been waiting a long time
Waiting a long time
I've been waiting a long time
Waiting a long time
To say that

There's a rhythm in the night
Tellin' me to come back
Know I'm gonna be alright
I'm movin' down the right track

If you wanna track me down
You know where to find me
Goin' back out on the town
Gonna slam the door behind me

Chorus

(Bridge)
So much better than I remember
It feels like the very first time
Headlights, street lights, everything is so bright
Gonna see what I can find

Chorus (waiting a long time x4)

Chorus
